NEW SHOW ROOMS for BEDSTEADS.

—HEAL and SON have erected some extensive Ware-rooms for the purpose of keeping every description of Bedstead. In them their stock will include every sort manufactured, from the cheap Stump, for servants' use, to the handsomely-ornamented [illegible] Canopy, as well as Brass Bedsteads of every shape and pattern; and in Wooden Bedsteads their rooms are sufficiently extensive to allow them to fit up a variety, both in Polished Birch and Mahogany, of Four-post, Canopy, and French and also of Japanned Bedsteads—in fact, to keep in stock every sort of Bedstead that is made; they have also a general assortment of Furniture, Chintzes, Damasks and Dimities, so as to render their stock complete for the Furnishing of Bedsteads as well as Bedding. Without attempting to compete with the prices at which the lowest class of furniture is sold, and which is fit for no useful purpose, their new stock will be found to be priced on the same principle by which their Bedding Trade has during the last thirty years been so successfully extended, and the goods, whether of a plain and simple pattern, or of a handsomer and more elaborate character, are of well-seasoned materials, sound workmanship, and warranted.

HEAL and SON'S LIST of BEDDING, containing full particulars of Weights, Sizes, and Prices of every description of Bedding, sent free by post, on application to their Factory, 196, opposite the chapel, Tottenham Court-road, London.

ZINC, from the VIEILLE MONTAGNE

MINING COMPANY, is the purest known, free from alloy of iron, lead, or sulphur. It is supplied in spelter for Brass founders, &c., and in sheets for ship sheathing and roofings of all kinds, and nails of all dimensions. It may be had at the following Agents', who have always a large stock in hand:—

London—Messrs. Charles Devaux and Co.; Mr. Charles Jack; Mr. William Sharroe.
Birmingham—Mr. John Barwell.
Liverpool—Messrs. E. Zwilchenbart and Co.
Manchester—Messrs. Rich, Johnson and Brother.
Leeds—Messrs. J. G. and T. Hoaps.
Hull—Messrs. Thomas B. Morley and Co.
Newcastle-upon-Tyne—Mr. Benjamin Plummer.
Leith—Messrs. Robert Anderson and Co.
Glasgow—Messrs. A. G. Kidston and Co.
Bristol—Messrs. Morgan, M'Arthur and Co.
Plymouth—Messrs. Luscombe, Driscoll, and Co.
Southampton—Mr. W. J. Lefeuvre.
Peterborough—William P. Stanley.
Ipswich—George Harpham.

Zinc from 20 to 24 oz. per square foot is generally used for roofings, which come at least one-third cheaper than slate coverings, and the ship sheathing, which lasts from five to six years, comes two-thirds cheaper than copper or yellow metal. And if the zinc coverings are made of the Vieille Montagne Zinc, and under the superintendence of Mr. FREDERICK BROWN, the surveyor of the Company (for which no charge whatever is made), a guarantee will be given of its durability.—For further particulars and prices, apply to Mr. H. F. SCHMOLL, General Agent for England, at the Company's Offices, No. 12, Manchester-buildings, Westminster-bridge, London.

IMPORTANT SANITARY

IMPROVEMENT.—The cheapest and most effectual preventive of Stench and Noxious Vapours arising from sewers, Drains, Cesspools, &c., is

BUNNETT'S PATENT SELF-ACTING AND SELF-CLEANSING EFFLUVIA TRAPS.

Thousands have now been used in all parts of the kingdom with uniform success. See testimonials, &c., which may be had at the Office, 26, Lombard-street.

Perfect action and durability are guaranteed.

BUNNETT AND CO., ENGINEERS AND PATENTEES OF REVOLVING IRON AND WOOD SHUTTERS, METAL SASHES, DOUBLY TRAPPED SELF-ACTING WATER-CLOSETS, &c. &c.

Offices, 26, Lombard-street; Works, Deptford, Kent.

TO ARCHITECTS, BUILDERS, &c.

ATTENTION is requested to the DIRECT

ACTION BALL TAPS, invented and patented by T. H. THOMPSON, C.E.

In these Taps the old-fashioned lever is done away with, whose damming action whilst the water was being admitted, soon wore out the cone, and rendered the cock unsound.

The Direct Action Ball Taps cannot stop up or down, thereby either flooding or leaving premises without water, a fault which all similar contrivances possess in an eminent degree.

They will fill a reservoir in less time than any other tap of similar dimensions, on account of the water-way being wide fully open till the water in cistern is within one inch of the required level, when they shut off without possibility of leaking.

The perpendicular principle, with compensating valve, &c., renders this action unerring and perfect under any pressure whatever.

Specimens can be seen in action at the office, also all necessary information, with drawings, forwarded by application to T. H. THOMPSON, C.E., 21, Parliament-street, Westminster.

GREAT REDUCTION in PRICES.

GLAZED STONE WARE DRAIN PIPES.

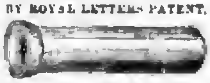
TURNER and MONTAGUE, Leigh Pottery, near Southend, Essex, now offer to the public Glazed Stone Ware Drain Pipes of the best quality at the following reduced prices:—

Straight Tubes with Socket Joints, in 2-feet lengths.

2 in.	3 in.	4 in.	6 in.	9 in.	12 in.	15 in.	18 in.
3d.	3½d.	4½d.	6d.	1s.	1s. 6d.	2s. 6d.	3s. 3d. per foot.

Closet pans with Traps 3s.; Bends, Junctions, Filters, Jars, Bottles, Chemicals, &c. &c. at reduced prices in proportion. A discount on the above prices dependent on quantity and mode of payment. Orders received at and executed from their Wharfs, Falcon Wharf, 80, Bankside, Blackfriars; Harrow-bridge Wharf, Stratford, Essex; and at their Cement Works, Orchard-house, Blackwall.

IMPROVED DRAINAGE.
BY ROYAL LETTERS PATENT.



STANDING, FRANKLIN, & STANDING,

Sole Patentees and Manufacturers of the PATENT GLAZED STONE WARE SEWAGE PIPE. Offices, 23, Cornhill, entrance in Change-alley; Factory, Brunton's Wharf, Commercial-road, Limehouse.

By employing their patent machinery, S. F. and S. are enabled to produce a pipe for sewage and other purposes in every way far superior to those made by any other process, but more especially in those qualities so absolutely essential to a perfect, and cleanly mode of drainage. From the great and uniform amount of pressure, and peculiar construction of the machinery (allowing the air to escape), used in manufacturing, their pipes are entirely free from air bubbles, proving their greater strength, durability, and entirely preventing the contents percolating through; they are much smoother on the inside, insuring a perfect passage for the sewage and preventing any deposit.

STRAIGHT TUBES WITH SOCKET JOINTS, BENDS, JUNCTIONS, TRAPS, CLOSET PANS, Water, Gas, and Chemical Pipes, Architectural Ornaments, Vases, Chimney Pots, &c. Shipping and foreign orders executed to any extent.

Specimens may be seen at the offices, 23, Cornhill, where prices, &c., may be obtained, and licences granted for the use of the patent machine.

TO BUILDERS, PLUMBERS, AND FITTERS.

UNDER the SANCTION of the BOARD

of HEALTH.—The undersigned is manufacturing complete POTTERY WATER-CLOSETS, and also SELF-SUPPLYING and DISCHARGING FOUNTAIN BASINS, for the use of public buildings and private dwellings, of a most convenient, durable, and cheap description. He is now prepared to treat with parties who have the means, hands, and connections to make an extensive trade in this way. None but respectable parties need apply, and a reference will be expected. The above applies to London and its vicinity, and to all places where the Health of Towns Bill is about to be introduced, as well as to all large towns in the United Kingdom.—JOHN RIDGWAY, Cauldon-place, Staffordshire Potteries.

TO ARCHITECTS, BUILDERS, PLUMBERS, &c.
BY ROYAL LETTERS PATENT.
